

## **Teignmouth Engagement – media reported issues**

- Retain Teignmouth Hospital
- Welcome for new health and wellbeing centre
- Opposition to beds not being reopened and changes to outpatients/theatres
- Shortage of care/nursing homes in the area
- Capacity of other hospitals to cope
- More detail needed on where services will go
- Consultation process in 2015 disingenuous
- Teignmouth Hospital is a “gem that should be upgraded and treasured”
- Possible action to turn hospital into community asset
- Support for health and wellbeing centre but also for retaining hospital
- Concern over money raised by LoF being wasted
- Too early to conclude beds not needed, especially with growing population
- Suggestion of a land swap between hospital and council of hospital site for Brunswick site
- Suggestion that Bitton House becomes home of GPs
- Given the majority of the Teignmouth folk don't live in town, seems very sensible to have a fully integrated, purpose built, fully accessible health centre on the hospital site
